MPowered Health: Sign-in and onboarding guide

This guide explains how to enter MPowered Health for the first time or sign back in. You will need the app installed and an internet connection.

New to MPowered Health?

1. Open the app and swipe through the introduction screens if you would like to see them.
2. Tap **Get started**.
3. On **Create your account**, enter your email address, a password, and the same password again under **Confirm password**.
4. Tap **Create account**. If the passwords do not match, correct them before continuing.
5. Read the introduction to profile setup. You can tap **Terms and Conditions** or **Privacy Policy** to read either document. Tap **Continue** when ready.

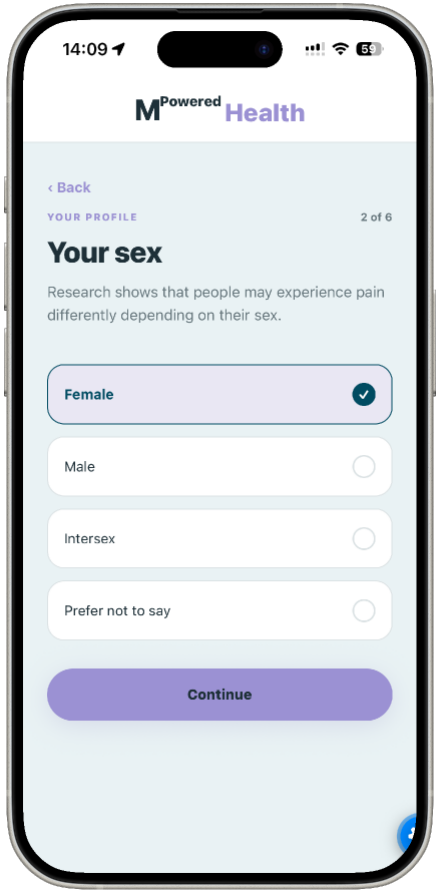

Complete your profile

The app asks these questions in order:

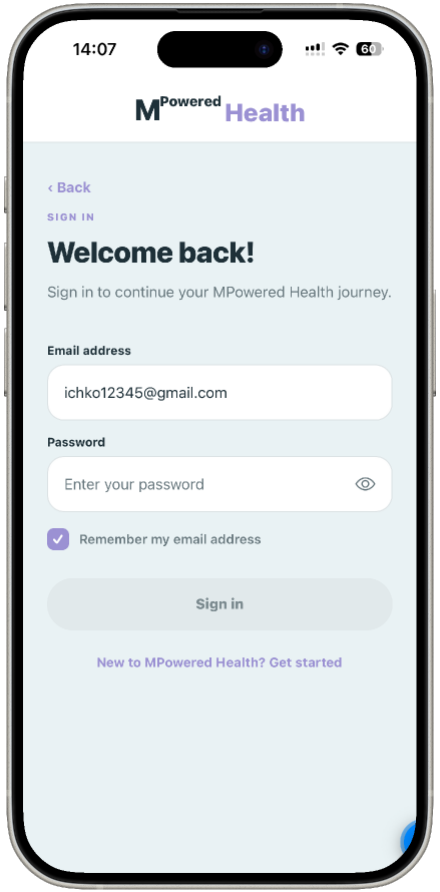

1. **Your name:** Type the name you want the app to use, then tap **Continue**.
2. **Your sex:** Select an option, then tap **Continue**.
3. **Your year of birth:** Enter a four-digit year and tap **Continue**, or tap **Skip**.
4. **Diagnosis:** Choose whether a doctor has diagnosed you with a musculoskeletal or chronic pain condition, then tap **Continue**.
5. **Pain conditions:** Select any conditions that apply and tap **Continue**, or tap **Skip**.
6. **Other conditions:** Type any other conditions or symptoms and tap **Continue**, or tap **Skip**.

Use **Back** if you need to return to the previous question. On the final screen, tap **Finish setup**. The app then prepares your MPowered plan and opens the Pain Tracker home screen.

Already have an account?

1. Open the app and tap **Sign in**. If you are on the account-creation screen, tap **Already have an account? Sign in**.
2. Enter your email address and password. You can use the password visibility control to check what you typed.
3. Leave **Remember my email address** selected if you want the app to fill in your email next time. This does not save your password. Deselect it if you do not want your email remembered.
4. Tap **Sign in**. The app opens the Pain Tracker home screen.

If something does not work

- **The button is unavailable:** Make sure all required fields are filled in. When creating an account, both password fields must match.
- **You see a sign-in or account-creation error:** Check the email address and password, check your internet connection, and try again. The app shows a message when the request fails.
- **You want to change an onboarding answer:** Use **Back** before finishing setup. After setup, you can review your personal details from **Settings → Edit Profile**.

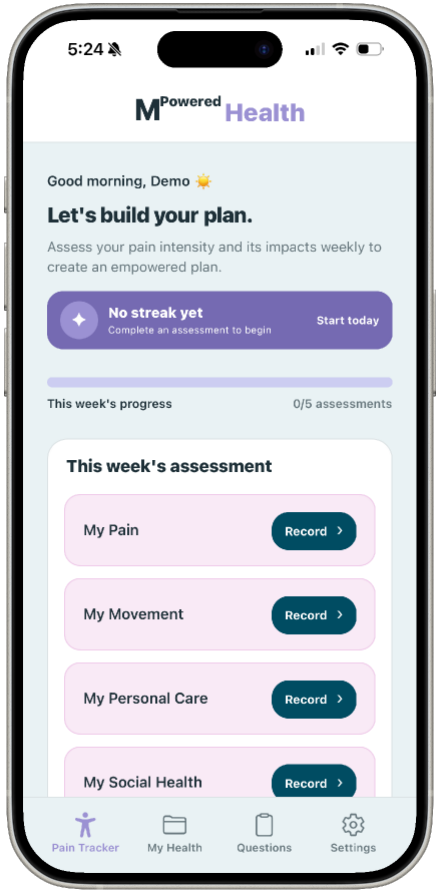

Do not share your password with anyone. For help with your account, contact the MPowered Health team through your usual support channel.

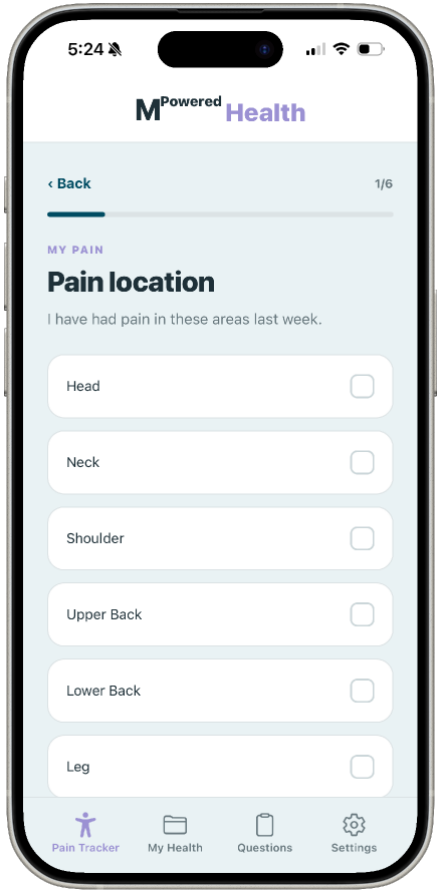

MPowered Health: Assessments

This guide explains how to complete your weekly assessments.

Complete Weekly Assessments

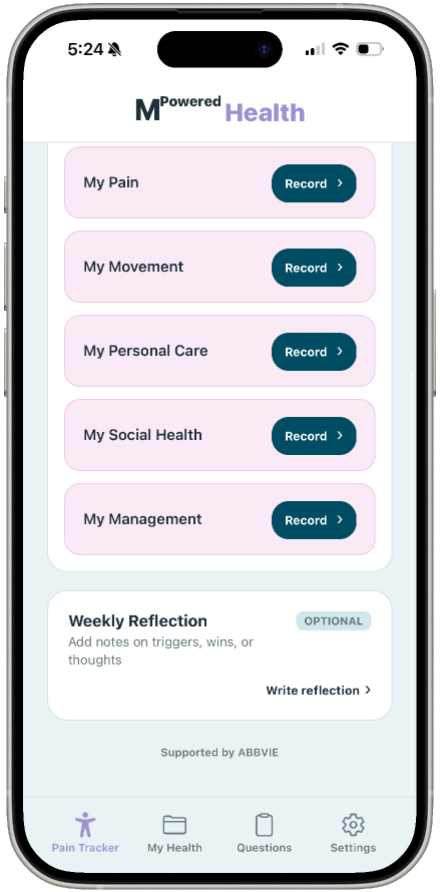

1. Open the **Pain Tracker** tab to view 5 weekly assessments.
2. Select **Record** next to an assessment to begin an assessment.
3. Complete the required fields and press **Record** to move onto the next question. You can track your progress via the progress bar at the top of each question.

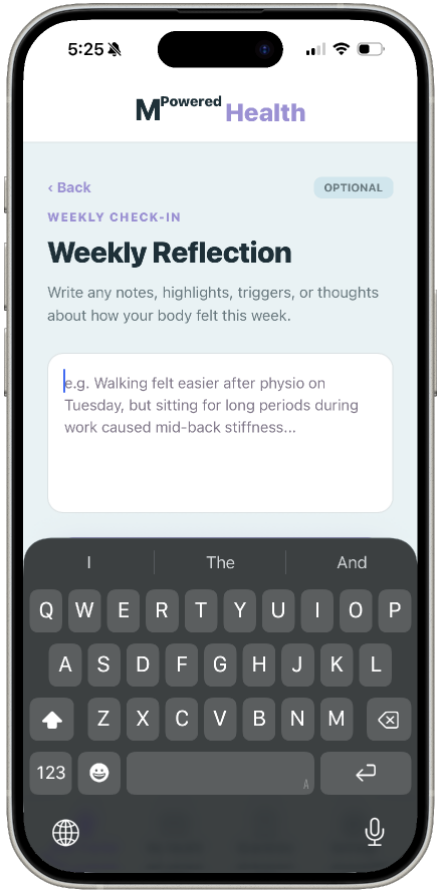

Complete Weekly Reflection

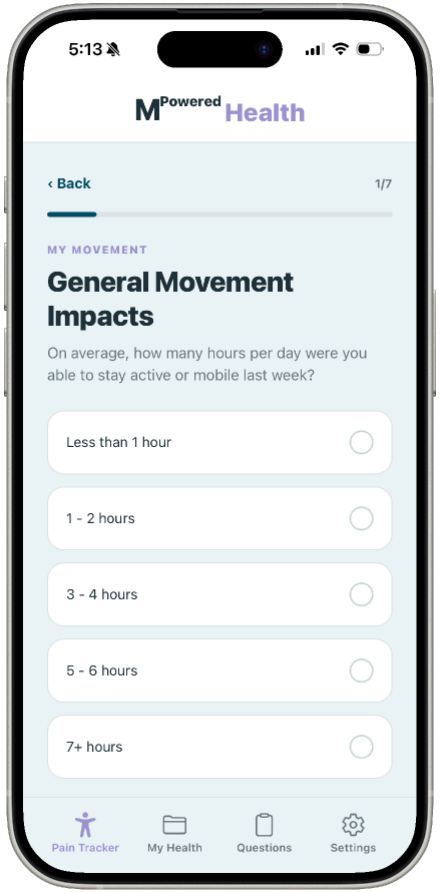

1. From the **Pain Tracker**, scroll down to **Weekly Reflection**. A **Weekly Reflection** is optional to log additional notes.
2. Click **Write reflection** to begin your weekly reflection.
3. Click **Save reflection** to save your reflection.
4. To update your reflection, from the **Pain Tracker** tab, scroll down to **Weekly Reflection** and click **Edit reflection**.

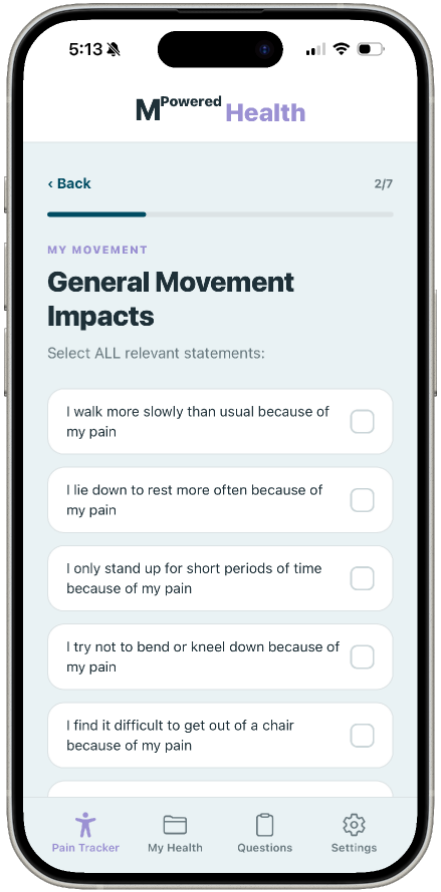

How to Answer (1)

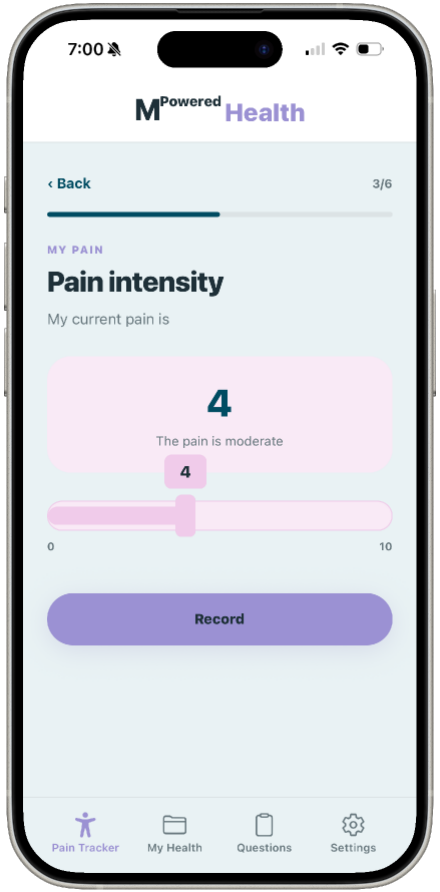

- There are 4 different question types:
  1. **Single Selection**: Select one out of the given options.
  2. **Multi Selection**: Select all options that apply.
  3. **Sliding Scale**: Drag the slider from 0 (No Pain) to 10 (Worst Pain) to set your level.
  4. **Text Entry**: Type your answer (voice-to-text dictation also available).
- Mandatory questions will require an answer to be filled-out before the **Record** button can be pressed.

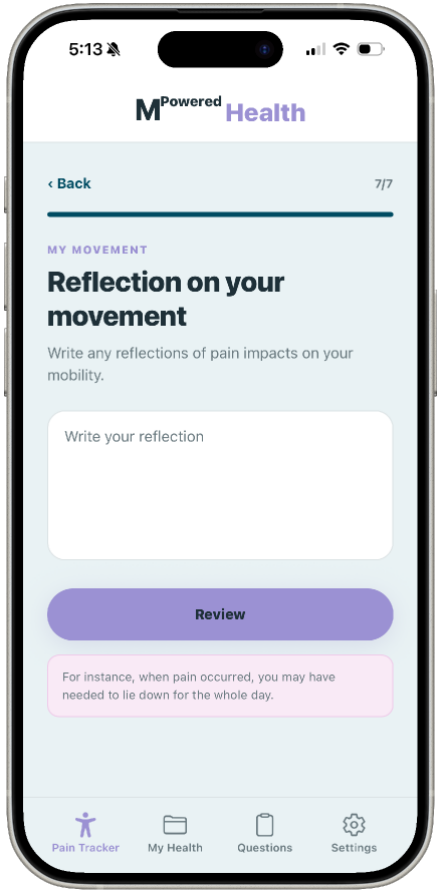

How to Answer (2)

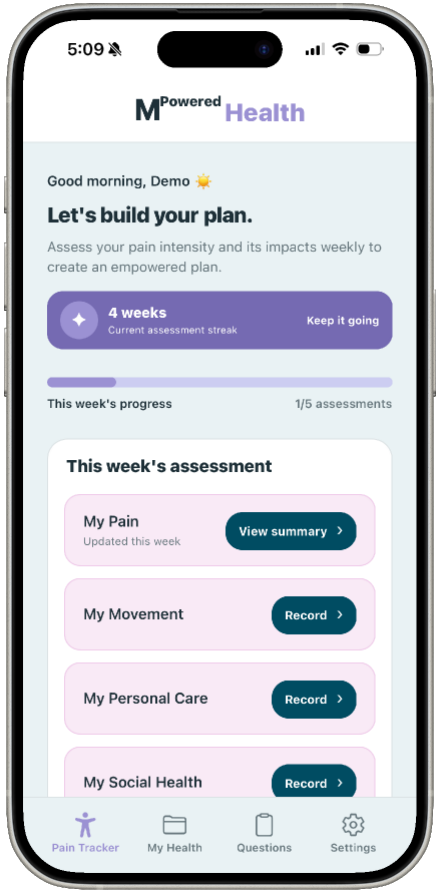

- There are 4 different question types:
  1. **Single Selection**: Select one out of the given options.
  2. **Multi Selection**: Select all options that apply.
  3. **Sliding Scale**: Drag the slider from 0 (No Pain) to 10 (Worst Pain) to set your level.
  4. **Text Entry**: Type your answer (voice-to-text dictation also available).
- Mandatory questions will require an answer to be filled-out before the **Record** button can be pressed.

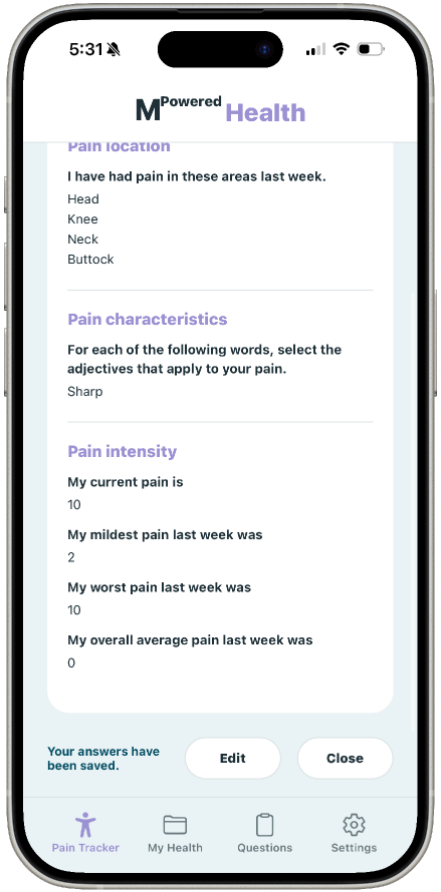

Review & Edit your Answer

1. Select **View summary** after completing an assessment to review or edit your recorded answer.
2. Click **Edit** to edit your answers.
3. Click **Close** to go back to the dashboard.

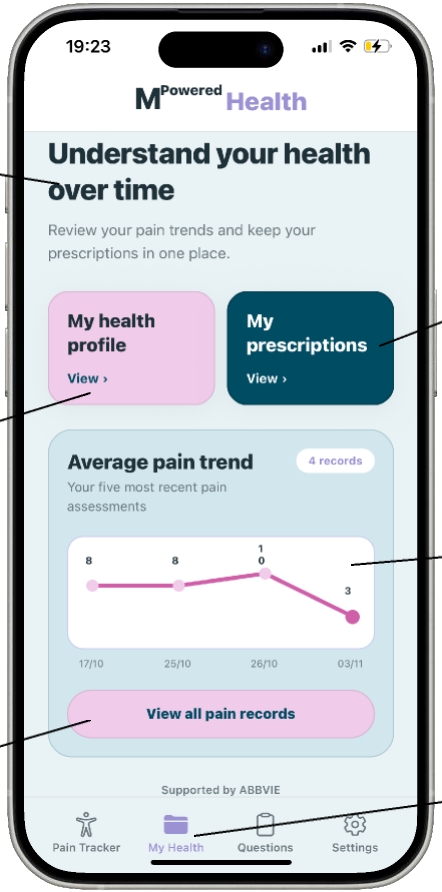

MPowered Health: My Health

This guide explains how to navigate the My Health feature - including viewing your pain data and adding prescriptions

Page overview

Entry point to overall health profile page

Entry point to tracking and visualising pain records
